

Health4Me

Welcome to Momentum Health4Me. Health4Me has three day-to-day benefit options, as well as two major medical event benefit options. Please check on your Health4Me membership card or membership certificate to find out which day-to-day benefit option you are on. You will also be able to see if you have any of the major medical event benefits, which major medical event benefit option you are on, and if your family members are covered.

Important note: You need to obtain authorisation for some of the Health4Me benefits in order for Momentum to pay for those claims. If you do not get authorisation, we will not pay for the claim and you will need to pay the healthcare provider's account from your pocket.

These are the benefits that are covered on the three day-to-day benefit options and on the two major medical event benefit options:

There is no overall limit on the number of GP visits that you can go for at a Network GP per year. You do, however, need to have Hello Doctor pre-authorization for every GP visit from your 4th Network GP visit onwards. Your Network GP visit can either be a face-to-face or video (virtual) call consultation. If you are registered on the chronic benefit, the HIV benefit or the maternity benefit programme, you will get an additional 2 Network GP visits per year that do not require Hello Doctor pre-authorization. Hello Doctor pre-authorization can be done via WhatsApp or the Momentum App. Hello Doctor will have a telephonic or video (virtual) call consultation with you, and if clinically required, authorise an additional Network GP visit if a Hello Doctor GP is not able to assist you over the phone.

You may visit any doctor on our GP Network for GP visits and acute medication. Acute medication is medicine like antibiotics that you need to take for a few days only. Your GP can prescribe medication for you from a list of approved medicines called a formulary. Your GP will either dispense the medicine to you after your consultation, or give you a prescription that you can take to a pharmacy to get your medicine. You can go to any pharmacy, but we suggest you go to a Dis-Chem, Clicks or Medirite pharmacy, as other pharmacies might charge an extra fee, which you will have to pay. Your Network GP may also send you for basic blood tests and black-and-white x-rays, and may also perform minor medical procedures as part of a consultation in rooms, such as stitching of wounds and reburialisation. We will pay the account if the doctor is on the GP Network and the blood tests, x-rays or minor procedures are on the approved list of benefits that we cover.
